

SNUG CENTRE

SNUGCENTRE

8 Zone 230v Wiring Centre

OVERVIEW

The Snug 8-zone Wiring Centre is designed to connect all the elements of an underfloor heating system. The compact unit includes cable clips and wall fixings.

SNUG MANIFOLDS

FEATURES & BENEFITS

- Extra large terminals for the connection of the electronic heads allow control of up to 16 circuits
- Connections for the boiler, pump and programmers included
- LED lights indicate when zones are energised

SPECIFICATIONS

Supply voltage:	230V AC, 50/60Hz
Number of zone outputs for thermal actuators:	8
Maximum number of actuators per zone:	2
Zone outputs, voltage:	230V AC
Zone outputs, max rating:	2.3W
Maximum ambient temperature:	50°C
Protection class:	IP53

STANDARDS

EN61000-6-3:2007+A1:2011
EN61000-6-1:2007
